ALAN M. TURING: THE FATHER OF COMPUTER SCIENCE

Thursday, 12 January, 16:30-17:30

As a contribution to the Alan Turing Centenary celebrations taking place around the world in 2012, ICE-TCS and the School of Computer Science at Reykjavík University will organize a series of events for the general public to pay tribute to one of the most influential scientists of the 20th century.
The first talk in the series will introduce Alan Turing, his life, and his historic and seminal contribution to the birth of the computer and of the science of computing, This event is organized jointly with the Icelandic Mathematical Society. The talk will be addressed to a general public. Attendance is free to all.
